

DomoSafety has signed a Letter of Intent with LG CNS for a Proof of Concept in US

LG CNS, one of the main member of LG group, specialized in system integration for hospitals, has signed a Letter of Intent with DomoSafety a Swiss company expert in home care services. This Letter of Intent states that both companies will cooperate for exploring business opportunities in the North American Market combining DomoSafety's monitoring home care solutions and LG CNS health care solutions. A proof of concept is planned to start as soon as possible in USA targeting Assisted Living Facilities (ALF). The purpose is to integrate DomoSafety's services into the Health Electronic Record (HER) of LG CNS infrastructure and to improve the quality of life of seniors living in the facilities. Collain Healthcare, an LG CNS daughter company in USA, led by physicians will manage this proof of concept.

ABOUT DOMOSAFETY

DomoSafety is a Swiss company founded in 2012 with the purpose to improve the quality of life of the elderly persons living at home. DomoSafety offers variety of health services for their lifespan.
